Evaluation Critaria		nd to	roio	ct				end to	2006	 		
<b>Evaluation Criteria:</b>	1	2	3	T 4	5	6	7	8	9	10		
The problem being studied is significant.			Ō		Ŏ	Ö		Ŏ				
The title reflects the content of the paper.												
The abstract is short and informative enough to stand on its												
own												
Enough precise keywords are provided	H			14	14	H	片		<u> </u>	H		
The introduction of the paper describes the problem within a theoretical framework.				$  \cup  $								
The background reveals a relationship to the problem.												
Enough literature is provided in the background.												
The sources cited are original, reliable, important, & recent.												
The paper includes clearly stated research question		0										
Appropriate research design/method has been used.		0										
Results have been reported and are applicable and of												
interest to the field.  Appropriate, correct and rigorous analysis of the research				$\vdash$								
question and/or subject matter is provided.												
Accurate and useful interpretation has been made.												
Sound argument and discussion has been provided.												
The study has been evaluated and compared to similar												
studies (if any).  Logical conclusions from the data have be drawn.	$\vdash$			+								
Conclusion describes implications for theory, research,	H		H	+	H	H	$\mathbb{H}$		$\exists$	H		
and/or practice.	_								_			
Style sheet of the IDJ journal have been observed.												
Table/figure captions are correct (if applicable).												
The reference list follows any of APA, MLA, Turabian, or												
Chicago Citation Styles.	<u> </u>
