Abstract:
Prepare sports clothes One of the most important requirements of sports activities For different games Also The appropriate sports clothing allows the freedom of movement of the player and the quality of performance, which helps the player to play the game properly The player progresses and gets more enjoyment of the game and it must be clothing is not tight or pressure on any part of his body to allow freedom of movement and to be cotton to allow the Absorption of sweat and be white or light to reflect the heat. The tennis games are one of the most important games among the other races as one of the recreational activities of the games and the high level games on the other hand. it is also considered the games of tennis is a favorite of the self from the exercise and watch for what you gain for the practitioners of the development of their physical, psychological and mental, so all countries of the world involved in the activities of sports practiced between children and youth and men and older men women. Tennis is an important sport that plays a role in preparing the individual physically, mentally, psychologically and socially through the development of its capabilities and potential for positive participation in the service of the community. So The aim of the research is to develop contemporary designs inspired by the flags of the Arab countries to enrich the aesthetics of tennis clothes, to create clothing designs for the tennis player in accordance with the trends of fashion, to provide designs suitable for the type of performance practiced, to provide designs that take into account the specifications of sportswear. The experimental approach was designed to measure the effect of the use of colors and lines of flags and logos of Arab countries on the proposed designs. An arbitration form was designed for the proposed designs of the sample of fifty students from the Faculty of Physical Education, And the University of Minya. An arbitration form has been designed for the proposed designs of specialists in the field of clothing, textiles, design and specialists in tennis. The most important findings of the research are that the proposed designs are suitable for tennis sport in terms of functionality and aesthetics. The proposed designs take into consideration the elements and the foundations of the design in terms of font and color taken from the flag and logo of the Arab countries. The designs are characterized by modernity, innovation and fashion. The designs contain aesthetics and artistic aspects And able to attract attention and show the sense of creativity.
